MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. GLOBAL ECONOMY REVIEW:

A tentative recovery in 2022 has been followed by increasingly gloomy developments in 2023 as risks began to materialize. Global output contracted in the second quarter of this year, owing to downturns in China and Russia, while US consumer spending undershot expectations. Several shocks have hit a world economy already weakened by the pandemic: higher-than-expected inflation worldwide—especially in the United States and major European economies—triggering tighter financial conditions; a worse-than-anticipated slowdown in China, reflecting COVID-19 outbreaks and lockdowns; and further negative spillovers from the war in Ukraine.

The baseline forecast is for growth to slow from 6.1 percent last year to 3.2 percent in 2022, 0.4 percentage point lower than in the April 2022 World Economic Outlook. Lower growth earlier this year, reduced household purchasing power, and tighter monetary policy drove a downward revision of 1.4 percentage points in the United States. In China, further lockdowns and the deepening real estate crisis have led growth to be revised down by 1.1 percentage points, with major global spillovers. And in Europe, significant downgrades reflect spillovers from the war in Ukraine and tighter monetary policy. Global

inflation has been revised up due to food and energy prices as well as lingering supply-demand imbalances, and is anticipated to reach 6.6 percent in advanced economies and 9.5 percent in emerging market and developing economies this year—upward revisions of 0.9 and 0.8 percentage point, respectively. In 2023, disinflationary monetary policy is expected to bite, with global output growing by just 2.9 percent.

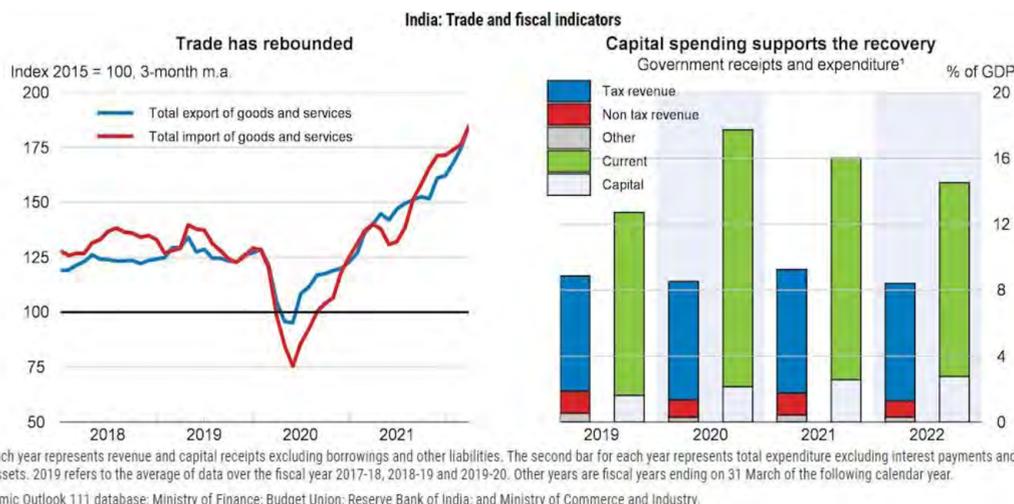

The risks to the outlook are overwhelmingly tilted to the downside. The war in Ukraine could lead to a sudden stop of European gas imports from Russia; inflation could be harder to bring down than anticipated either if labor markets are tighter than expected or inflation expectations unanchored; tighter global financial conditions could induce debt distress in emerging market and developing economies; renewed COVID-19 outbreaks and lockdowns as well as a further escalation of the property sector crisis might further suppress Chinese growth; and geopolitical fragmentation could impede global trade and cooperation. A plausible alternative scenario in which risks materialize, inflation rises further, and global growth declines to about 2.6 percent and 2.0 percent in 2022 and 2023, respectively, would put growth in the bottom 10 percent of outcomes since 1970.

With increasing prices continuing to squeeze living standards worldwide, taming inflation should be the first priority for policymakers. Tighter monetary policy will inevitably have real economic costs, but delay will only exacerbate them. Targeted fiscal support can help cushion the impact on the most vulnerable, but with government budgets stretched by the pandemic and the need for a disinflationary overall macroeconomic policy stance; such policies will need to be offset by increased taxes or lower government spending. Tighter monetary conditions will also affect financial stability, requiring judicious use of macro prudential tools and making reforms to debt resolution frameworks all the more necessary. Policies to address specific impacts on energy and food prices should focus on those most affected without distorting prices. And as the pandemic continues, vaccination rates must rise to guard against future variants. Finally, mitigating climate change continues to require urgent multilateral action to limit emissions and raise investments to hasten the green transition.

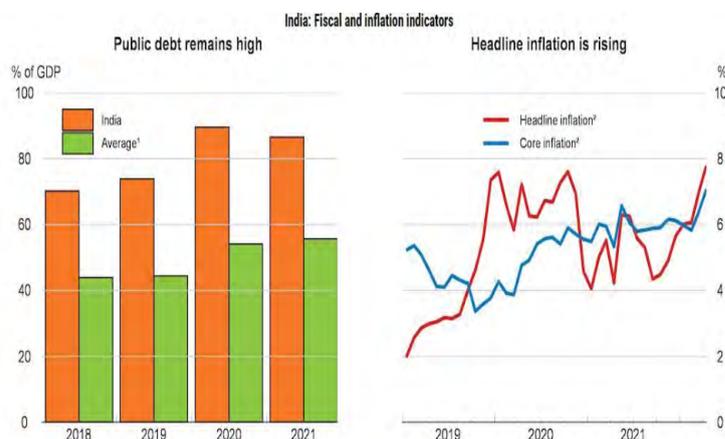

2. INDIA’S ECONOMIC REVIEW:

After recording the strongest GDP rebound in the G20 in 2021, the Indian economy is progressively losing momentum as inflationary expectations remain elevated due to rising global energy and food prices, monetary policy normalizes and global conditions deteriorate. Real GDP is projected to grow by 6.9% in fiscal year (FY) 2022-23 and 6.2% in FY 2023-24, despite a pick-up of corporate investment facilitated by the Production-Linked Incentive (PLI)

Scheme. While inflation will gradually decline, the current account deficit will widen due to the surge in energy import costs.

The Reserve Bank of India (RBI) began monetary policy tightening in May, intending to anchor inflation expectations and limit second-round effects. Given the financial and social costs of high inflation, the RBI should gradually move towards a more neutral monetary stance. The government should counter signs of a rapid deterioration in living standards with income support for vulnerable households. Risks include the appearance of a new COVID variant, failure to tame inflation, a reversal of capital flows to emerging markets, and a significant widening of the current account deficit.

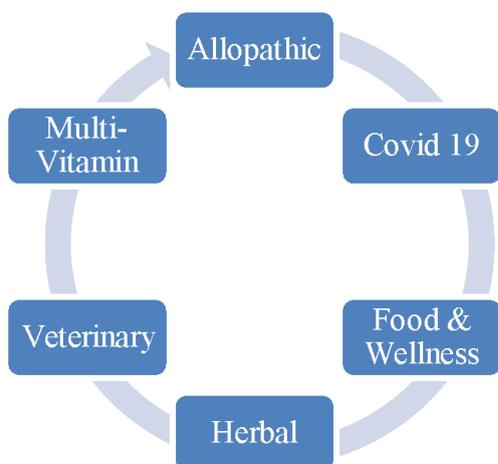

1. The unweighted average of general government debt ratio for similarly-rated countries (Bulgaria, Costa Rica, Indonesia, Hungary, Kazakhstan, Mexico, Malaysia, Peru, the Philippines, Romania, Thailand and Uruguay).
2. Headline inflation refers to the change in price of all goods in the basket. Seasonally adjusted and based on the monthly consumer price index and core CPI (index 2012 = 100) provided by the Central Statistics Office.

Source: IMF World Economic Outlook and CEIC. Consumption growth has slowed, with sales of two-wheeler falling to a 10-year minimum, subdued private sector credit growth, and contracting employment, although companies report difficulties in filling vacancies. Consumer price inflation for energy-related items and edible oils started trending up even before the Ukraine war and has accelerated afterwards. Inflation has also risen and become wide-ranging: almost 75% of the CPI sub-components exceed the 4% inflation target. Despite uncertainty, reflected in the higher yield on 10-year government bonds, equity markets have been boosted by the initial public offer (IPO) of state-owned Life Insurance Corp., India's largest ever IPO. Meanwhile, the import coverage of foreign exchange reserves, which exceeded 18 months in March 2021, declined to 12 months in March 2022.

4. INDUSTRY STRUCTURE AND DEVELOPMENTS

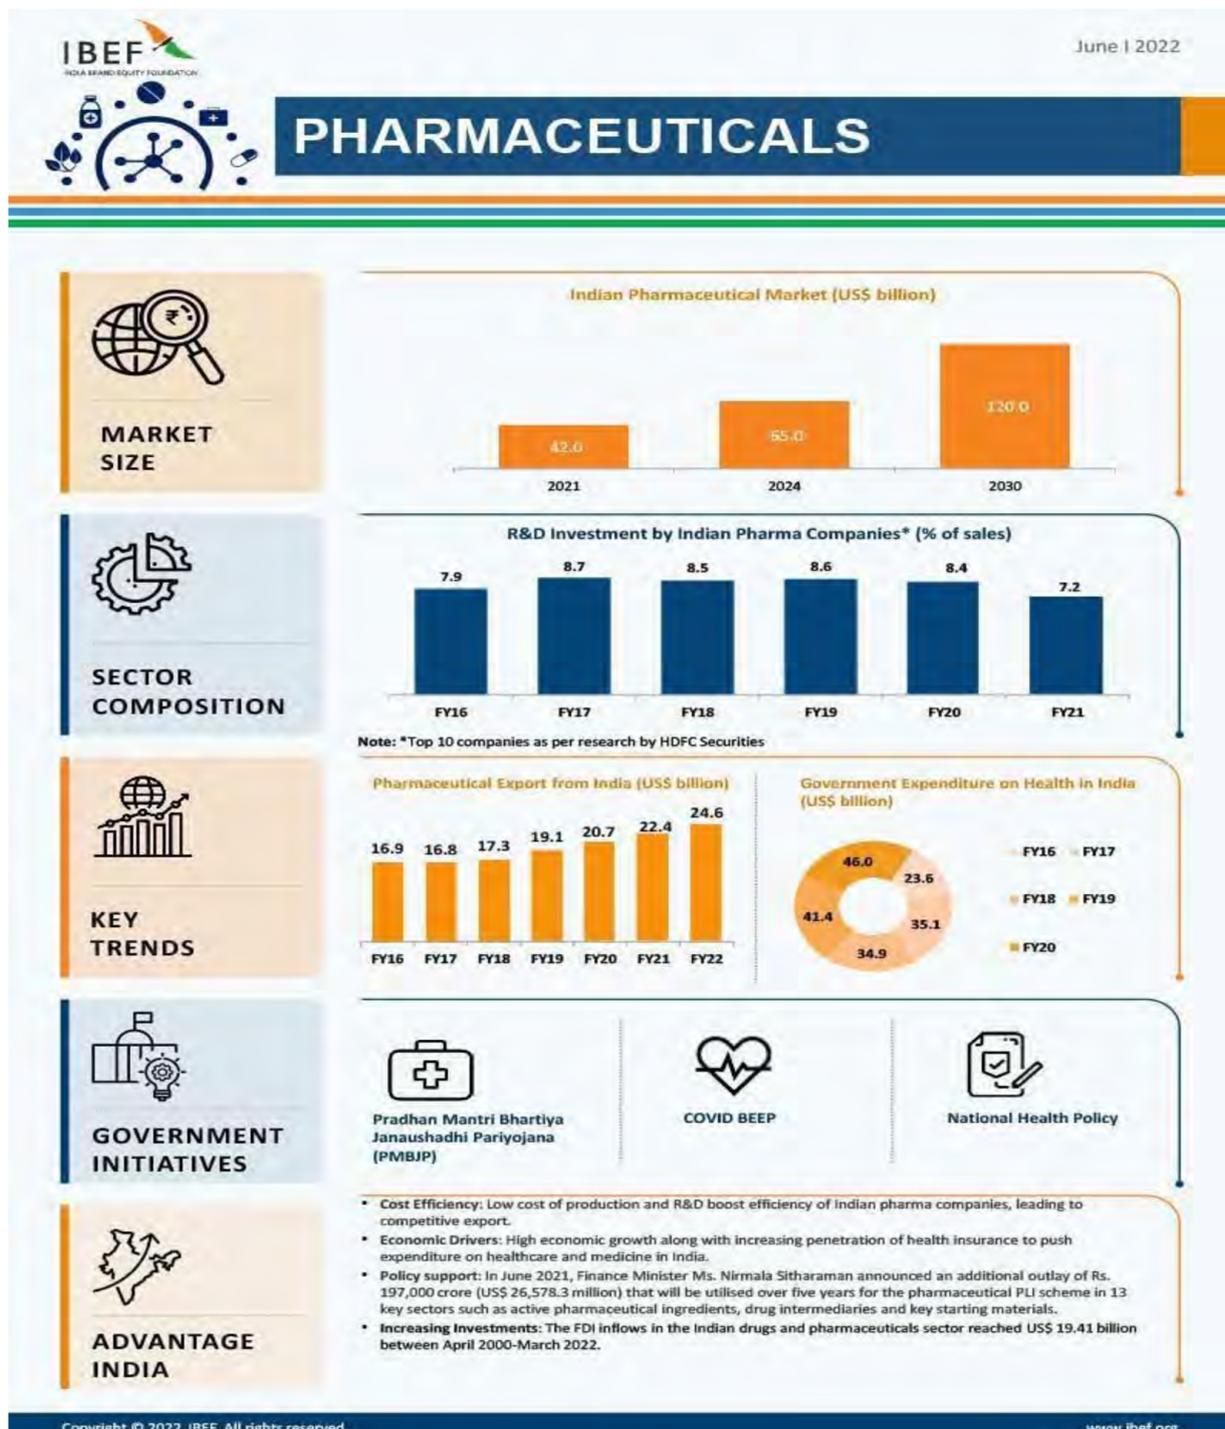

Overview of Global Industry:

The global pharmaceutical manufacturing market size was valued at USD 405.52 billion in 2020 and is expected to grow at a compound annual growth rate (CAGR) of 11.34% from 2021 to 2028. The pharmaceutical landscape has undergone a massive transformation with the emergence of new technologies, cost-effective, and more efficient manufacturing approaches. In addition, increasing investment flow in this space has impacted the market growth positively. Manufacturing floor downtime and the production of product waste are reduced by the implementation of robotic technology and Artificial Intelligence (AI). In addition, single-use disposable solutions have gained momentum in this industry and have replaced conventional open transfer manufacturing techniques. Furthermore, the paradigm shift towards integrated, smart, and data-rich paperless operations has resulted in error-free and precise production. Such ongoing developments have propelled drug manufacturing. Precision medicine comes from the idea of treating each patient as a unique individual. Advancements in omic and data analysis are providing new insights into how the human body responds to drugs. This knowledge, along with advanced manufacturing methods such as additive manufacturing, is making personalized medicine a reality. Drug exposure models determine the pharmacokinetic and pharmacodynamic properties of drugs for arriving at the right dosage for drugs based on age, sex, comorbidities, and other clinical parameters.

Overview & Developments of the Indian pharmaceutical Industry

Indian pharmaceutical sector supplies over 50% of the global demand for various vaccines, 40% of the generic demand for US and 25% of all medicines for UK. According to the Indian Economic Survey 2021, the domestic market is expected to grow 3x in the next decade. India's domestic pharmaceutical market stood at US\$ 42 billion in 2021 and is likely to reach US\$ 65 billion by 2024 and further expand to reach US\$ 120-130 billion by 2030. In

terms of overall revenue, the Indian pharmaceutical market increased by 13.9% in January 2022. India is the largest producer of vaccines worldwide, accounting for ~60% of the total vaccines, as of 2021. As of August 2021, CARE Ratings expect India's pharmaceutical business to develop at an annual rate of 11% over the next two years, to reach more than US\$ 60 billion in value.

(Source: <https://www.ibef.org/industry/pharmaceutical-india.aspx>)

The Indian Pharmaceuticals sector has seen some major developments, investments and support from the government in the recent past. The Indian drugs and pharmaceuticals sector received cumulative FDIs worth US\$ 19.41 billion between the periods April 2000 - March 2022. Indian drug & pharmaceutical exports stood at US\$ 24.60 billion in FY22 and US\$ 24.44 billion in FY21.

As per the Union Budget 2022-23:

- Rs. 3,201 crore (US\$ 419.2 million) has been set aside for research and Rs. 83,000 crore (US\$ 10.86 billion) has been allocated for the Ministry of Health and Family Welfare.
- Rs. 37,000 crore (US\$ 4.83 billion) has been allocated to the 'National Health Mission'.

The Ministry of AYUSH has been allocated Rs. 3,050 crore (US\$ 399.4 million), up from Rs. 2,970 crore (US\$ 389 million).

Indian healthcare sector, one of the fastest growing sectors, is expected to cross US\$ 372 billion by 2022. India's medical devices market stood at US\$ 10.36 billion in FY20. The market is expected to increase at a CAGR of 37% from 2020 to 2025 to reach US\$ 50 billion.

The Contract Research and Manufacturing Services industry (CRAMS) is expected to reach US\$ 20 billion by 2024 and is expected to grow at a CAGR of 12%.

In March 2022, under the Strengthening of Pharmaceutical Industry (SPI) Scheme, a total financial outlay of Rs. 500 crore (US\$ 665.5 million) for the period FY 2021-22 to FY 2025-26 were announced.

In November 2021, PM Mr. Narendra Modi inaugurated the first Global Innovation Summit of the pharmaceuticals sector. The summit will have 12 sessions and over 40 national and international speakers deliberating on a range of subjects including regulatory environment, funding for innovation, industry-academia collaboration and innovation infrastructure.

To achieve self-reliance and minimize import dependency in the country's essential bulk drugs, the Department of Pharmaceuticals initiated a PLI scheme to promote domestic manufacturing by setting up greenfield plants with minimum domestic value addition in four separate 'Target Segments' with a cumulative outlay of Rs. 6,940 crore (US\$ 951.27 million) from FY21 to FY30.

In Budget Speech, Finance Minister Ms. Nirmala Sitharaman announced an additional outlay of Rs. 197,000 crore (US\$ 26,578.3 million) that will be utilized over the next five years for the pharmaceutical PLI scheme in 13 key sectors such as active pharmaceutical ingredients, drug intermediaries and key starting materials. India being the 3rd largest pharmaceuticals industry in the world by volume offers a positive growth trajectory in the coming years.

Over the next five years, India's medical spending is expected to increase by 9–12% placing it among the top 10 nations worldwide. The ability of companies to orient their product portfolio towards chronic therapies for diseases like cardiovascular, anti-diabetes, anti-depressants, and anti-cancers, which are on the rise, will also play a role in future domestic sales growth. Speedy introduction of generic drugs into the market has remained in focus and is expected to benefit the Indian pharmaceutical companies.

5. OPPORTUNITIES AND THREATS

Opportunities

The COVID-19 pandemic has transformed the industry with increasing digitization, and traction of e-pharmacy and pharmacy chains. Increased healthcare coverage and better policy support are likely to boost growth whereas adverse regulation could impact in a negative way. Factors which impact Industry and Company include:

- **E-pharmacy and Pharmacy Chains:** New-age channels are gaining increasing salience and have emerged as an additional access point for consumers along with brick-and-mortar retailers. The rapid growth of the sector further driven by COVID-19 tailwinds has led to the entry of conglomerates and e-commerce players like Reliance, TATA and Flipkart. Propelled by the impact of the pandemic and its impact on consumer behavior, the online pharmacy channel is expected to continue growing and it is estimated to reach 70 Million households by 2025.
- **Ayushman Bharat:** The central government's health insurance scheme, Ayushman Bharat – Pradhan Mantri Jan Arogya Yojana (AB-PMJAY), is expected to drive up public health insurance coverage. 107.4 Million

Underprivileged and vulnerable families – equivalent to around 500 Million people or 40% of India’s population are covered under the scheme, with the provision of hospital care to an annual value of ` 5,00,000 per family. By February, 2022, more than 174 Million e-cards had been distributed to PMJAY affiliates, covering over 26Million hospital admissions across 25,000 participating public and private hospitals. While coverage under the scheme itself is limited to hospital inpatient care, it will allow a growing number of patients to gain access to healthcare, increasing rates of diagnosis and raising disease awareness. This will further benefit private clinics and the retail pharmacy sector.

- **GST:** The Indian Government is looking at rationalizing GST rates. Currently, majority of drugs are in 12% category. If drugs are put in higher category and if it is not implemented rationally, it may impact the industry
- **OTC Drug Regulations:** The OTC sector in India has been growing at a healthy rate driven by growing access to information for patients and willingness to self medicate. The Ministry of Health (MOH) has published a draft notification which proposes to allow 16 OTC drugs used for treatment of common ailments to be sold without doctor’s prescription. The MOH also plans to formulate an OTC regulation to promote responsible self- medication for treatment of common ailments, which will also enhance access to healthcare services. Any policy mandate is likely to benefit the Company given its dedicated OTC vertical.
- **Uniform Code of Pharmaceutical Marketing Practices (UCPMP):** UCPMP, while currently voluntary, could become mandatory in future. A mandatory code would require ethical marketing practices to be followed by all companies. Given that the Company has robust compliance processes in place, it would be well positioned under a strict enforcement of UCPMP.
- **NMC Regulations:** The National Medical Council has published draft Registered Medical Practitioner (Professional Conduct) Regulations, 2022, which has proposed several restrictions on RMP’s engagements with the pharmaceutical industry and proposed changes in prescription guidelines. The draft once notified will replace the existing MCI regulations.
- **Digital Engagement:** Field force activity witnessed major disruption during the pandemic prompting companies to utilize digital means for engagement with Healthcare Professionals (HCPs). The trend is expected to continue with HCPs looking for high quality, scientific promotional material that is available at their convenience.

Threats

- Uncertainty in the global markets, owing to the increased strain in the advanced economies and emerging economies due to the COVID-19 & Ukraine War impact can result in volatile capital inflows and currency fluctuations. Increased restrictions on migration and global trade could hurt productivity and incomes and take an immediate toll on market sentiment.
- Technological disruptions- With rapid changes in technology and innovations, companies need to increase its attention towards innovation objectives alongside business growth objectives. With increasing performance expectations related to quality, timings and cost, technological upkeep is very important to keep in line with competitors, especially new competitors that are –born digital and with a low-cost base for their operations. The risk of disruptive innovations enabled by new and emerging technologies is always present.
- Any stringent regulatory changes or unfavorable policy changes can pose a threat to the Company in the short run.
- Short term economic slowdown impacting investor sentiments and business activities
- Use of generic drugs which affects the domestic industry on a large scale which in turn reduces the quality of its effectiveness.
- Patent Cliff

5. ECONOMIC OUTLOOK

The risks to the outlook are overwhelmingly tilted to the downside. The war in Ukraine could lead to a sudden stop of European gas imports from Russia; inflation could be harder to bring down than anticipated either if labor markets

are tighter than expected or inflation expectations unanchored; tighter global financial conditions could induce debt distress in emerging market and developing economies; renewed COVID-19 outbreaks and lockdowns as well as a further escalation of the property sector crisis might further suppress Chinese growth; and geopolitical fragmentation could impede global trade and cooperation. A plausible alternative scenario in which risks materialize, inflation rises further, and global growth declines to about 2.6 percent and 2.0 percent in 2022 and 2023, respectively, would put growth in the bottom 10 percent of outcomes since 1970.

The Management is also responsible for ensuring that the risk management framework is effectively implemented within all areas of their respective functions.

Our business depends on consumer confidence in the overall economy, economic growth rates, household saving rates and consumer attitudes towards financial savings, in particular, within India. Any adverse market rate fluctuations and/or adverse economic conditions could affect our business in many ways, causing a decline in our revenue

Risk is an integral part of the business and we aim at delivering superior shareholder value by achieving an appropriate balance between risks and returns. The financial services industry is subject to continuously evolving

legislative and regulatory environment due to increasing globalization, integration of world markets, newer and more complex products & transactions and an increasingly stringent regulatory framework.

Our senior management identifies and monitors the risks on an ongoing basis and evolves processes/systems to monitor and control the same to contain the risks to minimum levels. Periodic monitoring by our officials helps in identifying risks in early stage. If required, a risk event update report is periodically placed before the Board of Directors of the Company.

If our investment strategies perform poorly, our existing customers may reduce or withdraw their investments. Underperformance to benchmark could lead to a shift to low cost passive funds. We are exposed to credit risks, liquidity risks and market risks such as interest rate risks and price risks. We are also exposed to operational risks and legal risks. The effectiveness of our risk management is limited by the quality and availability of data. Our schemes and other investment products carry their own risks.

We depend on the skills and expertise of our employees and our success depends on our ability to retain key members of our teams. If we are not able to retain existing employees or attract new talent, it could affect our operations resulting in decline in performance of our business.

Regulatory framework, focused on maintaining controls on domestic businesses but even inadvertently creating more favorable regulatory environment for global entities operating in India is a matter of concern. We actively participate in dialogue in industry bodies and with regulators to point these out and to recommend appropriate changes. While we ensure that we are in compliance with all applicable laws, however any failure in detecting errors in our statutory records or errors or omissions in our business operations could expose us to potential losses and regulatory fines amongst others.

7. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an internal control mechanism commensurate with its size and nature of business. These systems provide a reasonable assurance on achievement of its operational, compliance and reporting objectives, including safeguarding the Company's assets, prevention and detection of frauds, accuracy and completeness of accounting records and ensuring compliance with corporate policies. This mechanism is sound in design and the framework is continuously evaluated for effectiveness and adequacy. The mechanism operates through well-documented standard operating procedures, policies and process guidelines and segregation of duties. Periodic analysis and reviews are conducted by the senior management to assess its efficiency. Also, the same is discussed with auditors on a regular basis. Change in control structure is carried out to meet business needs along with control effectiveness. The Internal audit plan is finalized based on current perception of internal control risk and compliance requirement in consultation with the operating divisions. The Internal Auditors, as a part of their audits, review the design of key processes to assess the adequacy of controls and also propose remedial measures, wherever required. The Internal Audit Reports issued by the Internal Auditors are discussed with the Senior Management and presented to the Audit Committee on a quarterly basis. An independent and empowered Audit Committee reviews the significant observations and assesses the adequacy of the actions proposed while monitoring their implementation. The Internal Auditors conduct a quarterly follow up for implementation/ remediation of all audit recommendations and the status report is presented to the Audit Committee on a regular basis. The Company has implemented both preventive and detection controls. Appropriate corrective actions taken to reduce the risks include the following:

- The Fabino Code of Business Conduct requires annual certification by all employees;
- The Compliance Committee is formed with representatives from all the operating groups;
- Senior Management has oversight of the compliance programs;
- The Business Compliance Cell is assigned the responsibility of training, monitoring and ensuring employees' compliance with the Company's policies and procedures
- Internal Investigation reports are presented before the Audit Committee on a quarterly basis;
- Business divisions have periodic meetings with the Director - Office of Ethics and Compliance, to monitor and discuss compliance with various business processes. The Management has assessed the adequacy and effectiveness of internal controls over financial reporting for the year ended March 31, 2023 and basis the

assessment, believes that the processes are working efficiently and effectively. The Statutory Auditors have issued unmodified audit report on the adequacy of the internal controls over financial reporting and its operating effectiveness.

The Audit Committee of the Board of Directors reviews the existing audit procedures and internal systems of control on an ongoing basis keeping in mind the organization's requirements, growth prospects and ever evolving business environment. They also review the internal audit findings and recommendations and ensure that corrective measures are implemented. The Audit Committee is responsible for overseeing the risk management framework, reviewing the key risks and mitigation strategies, and ensuring the effectiveness of risk management policies and procedures. The Management is also responsible for ensuring that the risk management framework is effectively implemented within all areas of their respective functions.

Our Company has received consent from the Statutory Auditor namely, D G M S & Co. Chartered Accountants about the adequacy of the internal control mechanism as mandated the listing obligation and disclosure requirements and other regulatory prescription for the time being in force.

INDEPENDENT AUDITOR'S REPORT
TO MEMBERS OF
FABINO LIFE SCIENCES LIMITED

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of **Fabino Life Sciences Limited** which comprise the Balance Sheet as at **31st March 2023**, and the Statement of Profit and Loss and Cash Flow Statement, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. (hereinafter referred to as the “standalone financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2015, as amended, (“AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit and Loss account and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, but does not include the financial statements and our auditor’s report thereon. These reports are expected to be made available to us after the date of our auditor’s report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements, or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in "**Annexure A**", a statement on the matter specified in the paragraph 3 and 4 of the Order.

- a) There has been no resignation of the statutory auditors of the Company during the year.

(xix) Material uncertainty on meeting liabilities:

- a) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) Compliance of CSR:

- a) According to the information and explanations given to us and based on our examination of the records of the company, the company has not required to spent amount towards Corporate Social Responsibility (CSR) as per the section 135 of companies' act, 2013, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT ON THE FINANCIAL STATEMENT OF FABINO LIFE SCIENCES LIMITED FOR THE YEAR ENDED 31ST MARCH 2023

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **Fabino Life Sciences Limited** ('the Company') as of 31st March, 2023 in conjunction with our audit of the AS financial statements of the Company for the year ended on that date.

Opinion

We have audited the internal financial control with reference to financial statement of Fabino Life Sciences Limited (“The Company”) as of 31st March 2023 in conjunction with our audit of the financial statement of the company at and for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (the 'ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we

comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
